Thanks for your interest in taking FIN 302 with me. The enrollment process for this class has been complicated for the past seven years because it provides access to students across the whole campus, but with some seats reserved for students in the business-minor program.

Starting Winter 2022, however, we are no longer reserving any seat for business-minor program. Ross business-minor students as well as other students outside Ross with sophomore standing or higher are eligible to enroll into this course. The enrollment FAQ that you may have seen prior to November 15, 2021, no longer applies.

**Q1: Which section should I choose to enroll into?**

A: This class has lectures on Mondays/Wednesdays and recitations on Fridays. Your attendance to both lectures and recitations is mandatory. If you succeed in enrolling into one of the six recitation sections (002 through 007) through Wolverine Access, then you will be automatically enrolled into the main lecture section (001). There are three time-slots for Friday recitations: 9-10am for sections 002/003; 10-11am for sections 004/005; and 11-12pm for sections 006/007. You are welcome to enroll into whichever section that works the best for your schedule.

**Q2: When can I sign up for this class through Wolverine Access?**

A: The scheduled registration period is November 18 through December 6, but seats for sections with a late start time on Fridays (such as sections 006 and 007) may exhaust quickly based on prior semester experiences. Different schools have different queueing systems in place allowing students to start the course enrollments at different times. Therefore, your first eligible date for enrollment can be very different from other students and may even be later than the date when seats are exhausted.

**Q3: Why is Wolverine Access showing this class as “open” but I cannot enroll into this course?**

A: Once you succeed in enrolling into one of the Friday recitation sections (002 through 007), you will be automatically enrolled into the main lectures section (001). As of November 29, 2021, the wait lists for all Friday recitations are open so you should feel free to place yourself on the relevant wait lists. Ross Registrar’s Office uses the enrollment cap as one of the tools to manage the enrollment process and may change the enrollment cap frequently to facilitate the automated process on the backend. Wolverine Access sweeps the class rosters nightly and issues permissions automatically to students with high enough priority on the wait lists in response to students dropping this class and RRO’s dynamic management on the enrollment caps. Once you place yourself on the wait lists, please keep an eye on the permission email that could land in your inbox any time and act on it timely. Permissions expire quickly (2/7 days before/after December 15 and 1 day after January 3). Upon the expiration of the permission, you will need to start over the entire process again.
Q4: Can you issue me an enrollment override permission?

A: Effective August 9th, 2021 students need to complete this eForm to request a course permission. You will no longer need to contact faculty members or program offices for a course permission. The Ross Registrar’s Office will review your request and will contact you with the appropriate next steps. Course permission requests will be processed in the order they are received.

If you are currently on the waitlist for a course, you should not complete this form. The Ross Registrar’s Office will issue permissions to eligible students on the waitlist when/if there is an open seat in the order of the waitlist.

More information regarding the new process can be found here. Please email RossPermissionsProject@umich.edu should you have any questions regarding the new process.

Q5: What should I do after receiving the enrollment permission?

A: You may receive an enrollment permission from Ross Registrar’s Office because a seat becomes available for those on the wait lists with higher enough priority. Make sure to monitor your email inbox carefully and follow the detailed instructions therein to enroll yourself through Wolverine Access. Just because you get an enrollment permission doesn’t mean you will be automatically enrolled into this class. Manual operations have to be initiated by you and there is a deadline before which you must act on the enrollment permission.

Enrollment permissions expire shortly after issuance. If your enrollment permission expired, then you have to place yourself on the wait list again, start over and wait for a seat to become available.

Starting November 15, 2021, enrollment permissions are valid for only two days after issuance.

Starting December 16, 2021, enrollment permissions are valid for seven days once issued.

Starting January 3, 2022, enrollment permissions are valid for only one day after issuance.

Q6: How can I find the course number and/or use the student backpack feature on Wolverine Access?

To find out the course number, go to the official course schedules. Make sure to check out the registration instructions from the Office of Registration. Some of you may also find it helpful to check out the enrollment information for Ross BBA Juniors and Seniors, Ross Registrar’s Office permissions page as well as the LSA tips page for using Backpack/Registration.
